
GO: Genes with .PolyA & .Expression (Day13 vs Day2)
vesicle−mediated transport
carboxylic acid metabolic process
oxoacid metabolic process
organic acid metabolic process
protein catabolic process
proteolysis involved in protein catabolic process
monocarboxylic acid metabolic process
generation of precursor metabolites and energy
ubiquitin−dependent protein catabolic process
energy derivation by oxidation of organic compounds
cellular respiration
aerobic respiration
purine ribonucleoside triphosphate metabolic process
purine nucleoside triphosphate metabolic process
ribonucleoside triphosphate metabolic process
