

Color Key

DEGs orthologs (one2one)

Tissue:

- ForeBrain
- MidBrain
- HindBrain
- Neural tube
- Heart
- Lung
- Liver
- Stomach
- Intestine
- Kidney
- Limb

Time:

- 10.5days
- 11.5days
- 12.5days
- 13.5days
- 14.5days
- 15.5days
- 16.5days
- Post natal

DEG_major:

- SGs
- TGs
- TSGs

DEG_minor:

- Early genes
- Metamorphosis entrance genes
- Late genes
- TGs
- TSGs

GO categories:

- gene expression
- mitotic cell cycle
- translation
- RNA processing
- protein folding
- ion transport
- noEnrichment
- cuticle development
- synaptic transmission
- eye development
- tissue development
- leg disc development
- wing morphogenesis
- sensory organ development
- generation of neurons
- muscle cell development/differentiation
